Focus Areas

React Native Architecture
Mobile Performance & Scalability
Team Leadership & Mentoring
Product Delivery & Ownership

PROFESSIONAL SUMMARY

Senior Software Engineer with **6+ years** of experience in mobile application development, specializing in **React Native** for Android and iOS, with additional experience in Android Java and modern web technologies. Proven track record of leading mobile delivery, architecting React Native solutions from the ground up, mentoring developers, and owning production-critical features across **food-tech, healthcare, fintech, and operational platforms**. At **Betamonks**, introduced and architected React Native capability within the company, served as the primary React Native specialist, and trained developers through structured internal sessions. At **FoodHub**, led development across large-scale merchant and customer applications, driving menu system revamps, performance improvements, and delivery across complex ordering workflows.

CAREER SNAPSHOT

Experience	6+ Years	Domains	FoodTech, Healthcare, FinTech, Internal Operations
Current Role	Senior Software Engineer at FoodHub	Strengths	Architecture, performance, scalability, delivery
Core Stack	React Native, Android, JavaScript, TypeScript	Mobile	Android & iOS, Redux, React Navigation
Leadership	Mentoring, technical ownership, team guidance, collaboration	Web / Side Projects	React.js, Next.js, Electron

PROFESSIONAL EXPERIENCE

FoodHub Software Solutions India Pvt Ltd

Senior Software Engineer | Chennai, India | Feb 2023 – Present

- Lead development and enhancement of large-scale React Native applications across merchant-facing and customer-facing food ordering platforms including **MyTakeaway / My Business Hub** and the **FoodHub Customer App**.
- Own and revamp the menu management system, including **Edit Menu** workflows, nested modifier handling, Redux data optimization for large menus, and UI redesign to improve usability and performance.
- Drive menu structuring revamp aligned with third-party menu standards, improving long-term scalability and compatibility for restaurant clients.
- Collaborate with **Product, QA, Backend**, and stakeholders to analyze live behavior, clarify requirements, and deliver optimized solutions for global restaurant clients.
- Implement performance and maintainability improvements across data-heavy menu and ordering flows, improving responsiveness and release stability.
- Played a key role in upgrading **React Native 0.67** → **0.72**, navigation modernization, and refactoring efforts across the codebase.
- Own production issue analysis, feature enhancements, release support, and complex workflow investigations for high-usage live applications.

Betamonks Technology Factory Pvt Ltd

Software Developer / Mobile Engineer | Chennai, India | Jun 2021 – Jan 2023

- Led the adoption and technical architecture of **React Native** at Betamonks, becoming the primary engineer responsible for introducing and scaling cross-platform mobile development within the organization.
- Served as the go-to React Native developer in the company, building multiple React Native applications from scratch and establishing implementation patterns for production delivery.
- Designed and conducted internal React Native enablement sessions for the team, delivering **2 weeks of structured training (1 hour daily)** to help developers learn React Native development.
- Led and guided junior developers, mentoring them in React Native and Native Android while promoting maintainable coding practices and delivery quality.
- Built and maintained applications across healthcare, diagnostics, fintech, and internal operations domains using React Native, Android Java, and NativeScript.
- Handled performance optimization, bug fixing, API integration, UI/UX improvements, and production support across multiple mobile applications.
- Contributed to security and code-quality improvements for the **Indian Bank Credit Card** app, focusing on vulnerability reduction and SonarQube-based remediation.

Software Development Intern

Betamonks Technology Factory Pvt Ltd | Chennai, India | Mar 2021 – May 2021

- Started career in mobile development through hands-on Android and application development exposure, which later evolved into ownership of React Native initiatives within the company.

SELECTED PRODUCTS & PROJECTS

Product / App	Company	Tech	Scope / Impact
MyTakeaway / My Business Hub	FoodHub	React Native	Led menu management, merchant operations features, ordering workflows, scalability improvements, and performance enhancements.
FoodHub Customer App	FoodHub	React Native	Worked on customer-facing ordering flows, app improvements, and production support.
Yuukke / Field Plus / Lead Partner	Betamonks	React Native	Built apps from scratch for consumer, healthcare, and internal field-operations use cases.
Aarthi Scans & Labs / Namma Labs / VMS	Betamonks	Android Java	Maintained diagnostic, staff operations, and token generation apps; handled enhancements and support.
Indian Bank Credit Card / MyOutcome	Betamonks	Android Java / NativeScript	Worked on vulnerability reduction, code-quality improvements, and app maintenance.
FOTOFASHBACK / Aura Fitness / Aura Gaming	Freelance	Next.js / React.js	Built web products for photo booth, gym management, and booking / session management use cases.

TECHNICAL SKILLS

React Native	Android	iOS
JavaScript	TypeScript	Java
Kotlin	Redux	React Navigation
React.js	Next.js	Electron
REST APIs	Firebase	Stripe
MongoDB	PostgreSQL	Git / GitHub / GitLab
Android Studio	Xcode	Postman

ACHIEVEMENTS

- Best Performer – Q1 2024 at FoodHub for ownership in menu revamp, performance optimization, and usability improvements.
- Architected React Native capability at Betamonks and became the primary internal React Native expert.
- Conducted structured React Native training sessions to upskill developers within Betamonks.
- Built multiple production applications from scratch across healthcare and internal business domains.

EDUCATION

Bachelor of Engineering (CSE) — Veltech High Tech Engineering College, Chennai | 2016 – 2020
